### TEACHING EXPERIENCE AND TRAINING

**Università Cattolica del Sacro Cuore**, Milan, Italy **Oct, 2019 - present**

Macroeconomics (in Italian), B.Sc. course, teaching assistant.

**Tinbergen Institute**, ONLINE **Aug, 2020**

Behavioural Macro and Complexity.

Summer course that provides a state of the art overview of complex economic systems with boundedly rational heterogeneous agents. The central question is: which emerging macro behaviour arises through the interactions of micro decisions of boundedly rational heterogeneous agents and how can policy affect micro and macro behaviour.

**Alma Mater Studiorum**, Bologna, Italy **Feb, 2020**

Experimental Economics: methods.

Ph.D. course providing a comprehensive overview of the experimental methodology in order to

design and run experiments independently.

**The London School of Economics and Political Science, London, UK** **Aug, 2019**

Tools for Macroeconomists: Advanced Tools.

Graduate-level course that teaches state-of-the-art techniques to solve and analyse advanced models. In particular, models with heterogeneous agents, continuous-time models, and also models in which the economy can be at the zero lower bound for the policy rate.
