

AGRISYSTEM PH.D. CANDIDATES

Presentazione progetti di ricerca

Coordina Prof. Paolo AJMONE MARSAN

Federico ARDENTI

Cover Crops and Sub-surface Drip Irrigation: Conservation practices to reduce N₂O emissions from agricultural soils

Francesca BANDINI

Fate and microbial diversity of biodegradable polymers under industrial conditions for anaerobic digestion and aerobic composting of food waste

Paolo BELLASSI

Taxonomic composition and viability assessment of microbial communities in the dairy chain

François BOURDICHON

Safety Demonstration of Food Cultures

Cecilia FIORENTINI

Development of new competitive and sustainable bio-based plastics

Chiara MISCI

Fermentation as a tool for an increased food security for African leafy vegetables

Laura PRINCIPATO

Development of innovative food ingredients

Seminari

Piacenza

Mercoledì 16 dicembre 2020, ore 9.00
